WHO WE ARE

CAMPBELL HOME is an online store for sustainable home goods that believes in the beauty of recycling. The founders, a married couple, were inspired by lockdown to DIY and make the most of resources around them, including what others threw away. They discovered that with a little creativity and willingness, anything can be transformed into something new and beautiful. At CAMPBELL HOME, we believe that what's beautiful doesn't have to break the bank, and neither should eco-conscious products.

That's why we offer a range of sustainable affordable products for your home.

As our business model is small scale and not mass production, all our pieces are limited editions and in most cases

made from order. We will always endeavour for you to receive your items within 10 working days from order.

WHY US?

CAMPBELL HOME originated from modest beginnings, husband and wife team that enjoys making something with love that someone else will love. Each piece is not only carefully curated and handmade but also sustainably sourced. We combine our love for DIY with timeless pieces that can enhance any space.

RECYCLED MATERIALS

We're all about creating awesome stuff that's good for the planet too. Everything we make is from recycled materials, and we love using everyday objects to make cool, timeless pieces that you'll love. Let's work together to reduce waste and keep our planet green!

HAND MADE

Hey there! At CH, we make every single product by hand with lots of love and expertise. This means you get a unique and high-quality item every time you shop with us. So why not check us out and see for yourself what handmade is all about?
